WHY JOIN?

EIT Water's Region West gathering brings leaders, innovators, public authorities and other stakeholders from France and the Benelux together to turn Europe's most densely connected water network into a working innovation community — ahead of the first EIT Water calls in 2027.

KEY OBJECTIVES

- Build lasting connections among EIT Water members across France and the Benelux.
- Prepare members for upcoming EIT Water calls in education, business creation and innovation.
- Engage new prospect members and partners to join EIT Water.
